

# CHAIR RECYCLING PROGRAMME

## Step 1:

At the end of the products' life the chairs are returned to the Chair Solutions factory.

## Step 2:

Each chair is disassembled into its Components—base, gas, mechanism, seat, back etc

## Step 3:

Seat and back are stripped of foam and fabric.  
(This process is aided by CGex technology with drawstring cut for easy release)

## Step 4:

Moulded foams are recycled by Joyce Foam as carpet underlay

## Step 5:

Nylon bases, plastic underseat, plastic inners and outers recycled by Wasson Plastic

## Step 6:

Gas spring, mechanism and back-bar recycled by PM Metal Recycling

## Step 7:

Chair Solutions also recycles:  
Cardboard (Wanless)  
General Waste (JJRichards)  
Plastic packaging (Recycling & Resource Mgt PL)
